

Solar Pumping Enquiry Form

Date: ____ / ____ / ____
 Name: _____
 Address: _____
 State: _____ Postcode: _____
 Phone: (____) _____ Fax: (____) _____
 Email: _____

1. Location: (nearest town) _____
2. Application: Stock water Community water supply
3. Destination : Tank Trough Dam Other
4. Water source: Bore Dam River Tank
5. Cable length from PV to controller: _____ (m)
6. Cable length from Controller to Pump: **(C)** _____ (m)
7. Volume of water required: _____ Litres/day
8. Month of peak water demand: _____
9. If bore hole
 - a. Inside diameter of casing: _____ (mm)
 - b. Total depth of bore: _____ (m)
 - c. Depth to water (standing water level) _____ (m)
 - d. Recommended pump setting (if known): _____ (m)
10. Total elevation from pump to point of delivery **(A)**
 (e.g. tank inlet): _____ (m)
11. Details of pipelines:
 - a. Type of pipe (e.g. poly, PVC, steel, etc) _____
 - b. Total length of pipe from pump **(B)** _____ (m)
 - c. Size (internal diameter) _____ (mm)
 - d. Class of pipe (e.g. Rural or Metric) _____
12. Is an automatic cut off switch required Yes / No ?
13. AC generator backup option required Yes / No?
14. PV mounting system: Roof Ground Pole Mount

Comments: _____
