

Roof Description for Solar Installation

Name:

Installation Address:

Phone: Fax: Email:

Please give me an estimate for:

a grid feed connected system similar to System # . . . as shown at
<http://www.rpc.com.au/specials.html>

a stand-alone system. I have completed a Power System Sizing form. See
<http://www.rpc.com.au/products/services/PowerSizing-FillinForm.pdf>

roof slope is north facing. If its not north facing:
..... degrees (East or West) from north

The roof slopes at degrees from the horizontal.

I want the solar panels mounted at: best tilt as you determine flush on the roof

Roof construction: tile corrugated zincalum or colourbond other

if other, roof material is:

Roof dimensions: metres long, metres wide

Height of eaves above the ground: metres

roof is shaded for approximately hours each day: in the morning or afternoon

I have attached photos of my preferred roof site in the middle of the day

I have attached a photo of my meter box (for grid connect only)

I think that my house roof may not be suitable. Please describe other options (eg shed, garage or ground mounted):
.....

Located metres from the house
