

# BUSHMAN 3-WAY: GAS/240v/12v 100 LITRE BAR FRIDGE

This is the perfect size fridge for fitting under benches and taking on those extended camping trips with the added bonus that it can work anywhere: on gas, 240V OR 12V!

Having said that, it's best to run this one on 12V while you're driving and then switch over to gas when you're parked up. If you're looking for a 12V fridge to run on solar, try a more efficient compressor driven fridge.

Conveniently front mounted controls with flame indicator makes lighting and adjustment a breeze. Other features include, reversible door, integrated handle, 3 balconies, 2 adjustable shelves, egg and ice cube tray.

TECHNICAL SPECIFICATIONS:		RPC Code: <b>APL-005</b>	
Gross Capacity	100 litres	Colour	White
Cooling	90 litres	Height	78 cm
Freezing	10 litres	Length	51.2 cm
Power Source	LPG-Propane	Depth	58.5 cm
Nominal gas consumption	0.28 kg/24 hours	Weight	34.3 kg
