

e17 Apollo

The Apollo is the basic part of all E17 lighting armatures; It can be mounted on the ceiling, wall or on the Tablo to make a ceiling, wall or table-lamp.

The E17 Lamps like Ulite and Ulux can either be mounted directly in the Apollo or through the Extender. The Apollo is build from high quality materials to ensure a good quality electrical contact which is of very high importance in low voltage DC installations. The positive and negative terminals are clearly marked with its polarity.

product code 14-0012
product size 95mm (Ø) x 50mm (h)
material ABS
color Grey / Black

e17 Extender

The Extender is flexible cable assembly that can be connected to the Apollo to make a hanging lamp, ranging in length from 30 cm up to 180 cm or longer (special request)

The Extender is available in 3 standard sizes 60, 120 and 180 cm and each Extender comes with a cable clip that allows the Extender to be adjusted to any length you wish.

The Extender can be combined with the Ulite or Ulux and all available E17 Shades.

product code Extender 1 (60cm) 14-0013
Extender 2 (120cm) 14-0014
Extender 3 (180cm) 14-0046

product size 60.5mm (Ø) x 0.6m - 1.8m
material PVC, nickel plated brass
color Grey / Black

e17 Pointer

The Pointer is a cable assembly with a solid bendable cable that can be connected to direct the light in your desired direction. The pointer has a length of 60 cm and can be used with the Apollo fixed to a wall or as a table lamp with the Apollo fixed to the Tablo.

The Pointer can be combined with the Ulite or Ulux and all available E17 Shades.

product code 14-0044
product size 60mm (Ø) x 60cm (L)
material PVC, Nickel plated brass
color Grey / Black

e17 Tablo

The Tablo is a Lamp base for a Table Lamp with a build in switch and cable to make a table lamp combined with the Apollo, Pointer and Halo or Skirt.

product code 14-0045
product size 175mm (Ø) , 2cm (h)
material resin
color Grey / Black
