

Energy Explorer

Mobile Energy Education Unit

"Climate change is having far reaching impacts globally and in our region. [It is] an issue that is having an increasing impact on the lives of all Australians."

Senator the
Hon. Ian Campbell,
Australian Minister for the
Environment and Heritage

* All Term 1, 2006 Programs are related to Commonwealth Games energy initiatives

This unique mobile Energy Education Centre is equipped with high-tech Renewable Energy Sources:

**Solar Power, Wind Power, Hydro Power,
Solar Hot Water ...and more!**

Hands-on, engaging and informative sessions will relate energy issues to students' real-life interests or concerns. Our highly experienced educator, together with age-appropriate presentation style, language and exploration worksheets, will ensure your students will learn about:

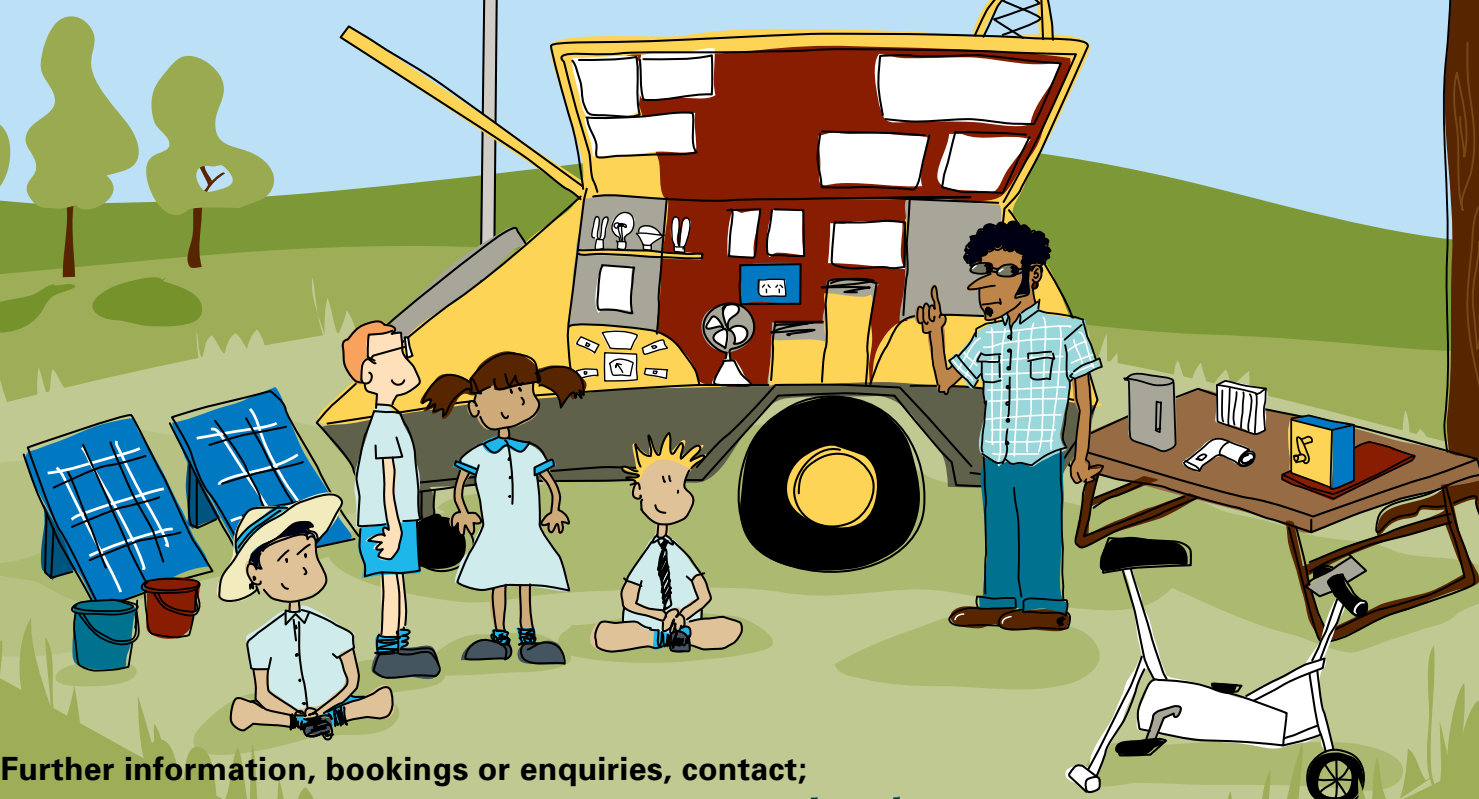

- Renewable Energy Technologies and issues
- Energy Generation
- Energy Conservation & Efficiency
- Victoria's fossil fuel usage
- Greenhouse Gases and Greenhouse effect
- Climate Change
- Health and Future Energy Security.

A focus on the V.E.L.S

To meet the multi-dimensional objectives of the V.E.L.S, all three Strands and multiple Domains are integrated into our programs and activities.

Programs for:

- ✓ Years 3 – 10
- ✓ VCE Physics
- ✓ VCE Environmental Science
